#### 1. INTRODUCTION.

This is an annual work plan set by Actions for Development Programmes(ADP) Mbozi for January to December 2022 financial year. The plan outlines projects/programmes and organization development activities to be implemented based on the implementation of the new five years'strategic plan (2022-2026).

The plan is built on the commitment already made between ADP-Mbozi and development partners to implement activities that address the needs of target group in the respective area where ADP-Mbozi is working.

Therefore the work plan embeds and reflects the key purpose of the organization of contributing towards improving the life of marginalized families in Tanzania through increased households' food security, improved household nutrition, income and livelihood assets.

The recommendations made from annual evaluation held in 21 to 22/12/2021 at Mbimba research center also included in this plan. Participants in the evaluation made valuable contributions aiming at improving the work done by ADP Mbozi.

The document (plan) is divided into four main parts as follows: -

The first part focuses more on the introduction, current external environmental issues surrounding the organization, brief history and setup of the organization and working area.

The second part provides information on ADP-Mbozi strategic direction, highlighting on the vision, mission and values, the focus areas of the organization as stated in the five years' strategic plan (2022 to 2026) including the approaches used by ADP Mbozi.

The third part is the main body of this document showing the main and strategic objectives, as well as the projects to be implemented under each focus area. The activities, targets and milestones are detailed in this section.

The fourth part shows the estimated budget that will facilitate the implementation of the planned activities.

### PART ONE: GENERAL BACKGROUND INFORMATION.

### 1.1 EXTERNAL ENVIRONMENT EXPERIENCED IN 2021 ANNUAL WORKPLAN

Tanzania experienced changes in leadership due to the death of the firth President of the United Republic of Tanzania honorable John Pombe Maghufuli. His death affected the work, especially the days spent during the mourning period.

The year also undergone changes of leadership at regional and district levels in the country, affected Songwe regional too. The changes consumed time in a sense that most of time spent to provide information about ADP Mbozi to the new leaders instead of getting support from them.

Increased cost of deposit and withdrawal fees in telephone/mobile companies started on 15/7/2021 had a significant impact on making payments that were ongoing in various projects as the rates of such services became much higher.

Changes in input prices have begun to discourage farmers and thus indicate signs that there will be an impact on agricultural production with declining production. Fertilizer prices have been very high for example; DAP Fertilizer (OCP) previously was TZS 60,000 now it is TZS 90,000; DAP(YALA) previous was TZS 90,000 currently is TZS 110,000.

In addition to that, people experienced the increase in fuel price which has continue to raise cost of living and thus contributed not to carry out activities properly as planned.

Due to climatic change, the year experienced heavy rains causing damage of major roads and bridges and therefore temporarily cutting off road communication, for example in Songwe district.

The organization continued to experience the outbreak of COVID-19 which in one way or another affected project implementation especially activities that involve mass gathering. As a strategy for mitigating the problem, the government started implementing the COVID-19 National Vaccine Deployment Plan by encouraging special groups to vaccinate but now, the government insists all citizens to get vaccine to protect themselves and reduce the effects of COVID-19.

### 1.2 HISTORICAL BACKGROUND

Agricultural Development Project in Mbozi came into being in 1986 to solve the problem of hunger that had occurred in Mbozi and Momba districts. The project continued to operate in different phases until 1995 and because of its good performance it was gradually expanding in terms of geographical coverage as well as number of interventions. By 1995 the project was operating in almost all divisions of Mbozi and Momba districts and new interventions of group organizations, Savings and Credits, irrigation, HIV/AIDS and gender were added.

As this project was coming to an end in 1995 stakeholders considered what would be the way forward as the target communities were still in need of project services. Therefore through the institutionalization process, an option of registering the project as a Trust Fund was chosen and actual registration was effected on 29 November, 1995.

Following the changes in law governing the establishment of Non Governmental Organizations in Tanzania [section 11(3) of Non Governmental Act No. 24, of 2002], ADP Mbozi was reregistered as NGO on 10<sup>th</sup> October 2005, with a registration number 1639. One of the important developments resulting from re-registration is that the organization can now operate throughout the country. At the same time the organization changed its name from Agricultural Development Programmes Mbozi Trust Fund to **Actions for Development Programmes – Mbozi** because currently the interventions are more than agricultural production.

### 1.3 ORGANIZATIONAL SET UP

The supreme organ of the organization is the General Meeting currently composed of five founder members and eight ordinary members. The Management and Control of the affairs of ADP Mbozi is entrusted to the Board of Directors which is responsible to the General Meeting.

The management team of the organization on the other hand guides the execution of the day to day implementation of the programmes and organizational processes. The management team is composed of heads of departments. Other key members of staff may be co-opted. The current departments of the organization include Sustainable Food and Nutrition development, Entrepreneurship and Market Development, Community Empowerment, Environment and Climate change mmanagement and Finance, Administration and Organizational Development. Heads of departments report to the executive director.

### 1.4 WORKING AREA

From the time when it was a project, ADP-Mbozi has been working in Mbozi and Momba districts in Songwe region.

Currently the organization is implementing projects in 18 District councils, 5 townships in Southern Highlands of Tanzania in Njombe, Rukwa, Katavi, Songwe and Mbeya. In all districts, the organization has sub offices and/or has established contact persons.

### PART TWO: ADP MBOZI STRATEGIC DIRECTION

This section elaborates on the strategic direction of ADP Mbozi for 5 years starting on the 1<sup>st</sup> January 2022 to 31<sup>st</sup> December 2026 and it is a first year of implementing the new strategic plan. Therefore in this section the vision and mision of the organization are well stated including the core values. The priority focus areas for this period are listed and the strategies for achieving the objectives of each area of focus are listed down.

### 2.1: VISION, MISSION AND VALUES OF ADP MBOZI.

### 2.1.1 Vision

ADP Mbozi envisions rural and urban communities of Tanzania attaining livelihood security and sustainably managing their resources.

### 2.1.2 Mission

ADP Mbozi is a leader in facilitating socio-economic empowerment of marginalized<sup>1</sup> rural and urban communities in Tanzania Mainland through promotion of agriculture production in the context of climate change and improved nutrition, entrepreneurship and market development, community empowerment on gender, HIV/AIDS, Children, good governance and environment. Moreover, the organization will take into consideration of the pandemic diseases in the course program implementation and also strive to strengthen its internal capacity in order to successfully implement the above-mentioned focus areas.

<sup>1</sup> Marginalized communities are defined as all the people (smallholder farmers, Orphans and Vulnerable Children and low income women) who because of their position in the society are exploited and are unconscious of their abilities to bring about their development and hence subjected to poverty.

### **2.1.3** *Values*

- i. <u>Commitment:</u> we believe commitment to our work shall lead to realization of significant positive changes in our organization and the community we work with.
- ii. <u>Sharing out:</u> we believe that development is brought about through combining efforts of different stakeholders therefore the communities we work with have a significant contribution torwards their own development.
- iii. <u>Transparency:</u> we commit ourselves to be transparent in our organization and we shall inspire the same to the communities we work with.
- iv. <u>Trustworthy:</u> we believe that trustworthy can help us to work as a team and therefore achieve our goals much more efficiently. We are also convinced that trustworthy, in case of farmers, is a pre-requisite for successful collective selling of their produce.

### 2.2: STRATEGIC FOCUS AREAS AND STRATEGIES

The strategic plan 2022 – 2026 has four focus areas as listed; -

- i. Food security and nutrition in the context of climate change.
- ii. Entrepreneurship and market development for crop and livestock producers
- iii. Community Empowerment on HIV/AIDS, children, gender, environment and good governance.(Epidemics include COVID-19)
- iv. ADP-Mbozi internal capacity strengthening

# From the above focus areas four strategic objective and strategies thereof were developed as follows;-

- **2.2.1:** Food security in the context of climate change and nutrition improved.
  - 1. To increase crop and livestock production
  - 2. To strengthen post-harvest practices.
  - 3. To improve nutrition status at household level.
  - 4. To promote appropriate farming technologies with adoption to climate change.
  - 5. To improve food budgeting at household level.
  - 6. To promote Horticulture and aquaculture at household level.
  - 7. Enhance climate change and variability management

### 2.2.2: Entrepreneurship and market accessibility enhanced.

- 1. To strengthen producers' marketing groups and associations.
- 2. To promote business development skills.
- 3. To promote access to markets and market information.
- 4. To enhance producers' and traders' linkage.
- 5. To enhance access of financial services

## 2.2.3: Enhanced community empowerment in dealing with children, gender, HIV/AIDS, and Good Governance

- 1. To address and support HIV/AIDS prevention and impact mitigation at community level including OVC/MVC.
- 2. To advocate for development issues related with youth and AGYW empowerment support.
- 3. To promote children rights and safeguarding.
- 4. To promote environmental issues in community level.
- 5. Promote good governance.
- 6. To promote gender equality and equity.

# 2.2.4: Governance and management capacity of ADP Mbozi strengthened in order to operate efficiently and effectively.

- 1. To enhance financial and human capacities of ADP-Mbozi
- 2. To improve structure, policies, systems and procedures
- 3. To improve and operationalize monitoring and evaluation plan/System.
- 4. To improve networking and collaboration.
- 5. To improve Publicity of ADP-Mbozi and its Products.
- 6. To develop quality standards of ADP-Mbozi services provision.

### 2.3 THE APPROACHES

For the five years 2022-2026 Strategic Plan, ADP Mbozi will operate by using the following approaches:

- a) Working with target beneficiaries through groups.
- b) Use of community volunteers.
- c) Farmers field schools.

- d) Value chain development.
- e) Networking and Outsourcing.
- f) Bi-directional referrals and linkages.
- g) Learning centers.
- h) Integration within the organization and between organizations.

### PART THREE: ANNUAL WORK PLAN FOR 2022.

Work plan for year 2022 is based on the commitment already made between ADP Mbozi and development partners to implement interventions that address particular needs of the target group in the mandate area of ADP Mbozi.

In this regard, much appreciation extended to all development partners who have joined hands with ADP Mbozi in bringing about much needed development to the marginalized communities.

The plan also based on the recommendations made by workshop participants of 2021 Annual Internal Evaluation conducted from 21-22 December 2021 at Mbimba Farm Research in Mlowo ward, Mbozi District. Participants made valuable contributions aiming at improving the work done by ADP Mbozi in ensuing years.

All planned activities reflect the focus areas of the organization as stated in the 2022 to 2026 strategic plan.

### 3.1 GENERAL OBJECTIVE.

The main objective of the organization is to contribute towards improving the quality life of marginalized families in Tanzania mainland through increased households' food, nutrition security, and income and livelihood assets.

### 3.2. CURRENT PROJECTS UNDER EACH STRATEGIC OBJECTIVE.

In order to meet the above strategic and main objective, the organization will implement the programmes and projects as presented below; -
